1919 PRISM IS ON SALE

S. WILSON COLLINS
EDITOR-IN-CHIEF

The 1919 Prism went on sale at the Junior Prom on Friday night and not on Thursday afternoon as had been announced in advance, the delay being due to the fact that the copies were involved in a train wreck this side of Lewiston and were thus delayed in delivery at Orono. The copies are now being sold at the college store for \$2.00 and will be delivered anywhere in the United States for \$2.25.

This year's Prism is dedicated to "the Maine men in service" and is appropriately bound in khaki color and is of a war issue type. Altho containing a smaller number of pages than customary of past Prisms the usual features of class rolls, fraternity and club

groups, athletic teams, the individual pictures of the Juniors, and an abbreviated grind section are combined with such new features as a Honor Roll of every Maine man in service, about sixty pictures of Maine undergraduates in service abroad and in different military camps, and a colored service flag, in addition to page-heading of draped American flags.

Due to the ruling of the faculty the expenses of producing the 1919 Prism was limited to about two-thirds the usual appropriation so this year's board of editors deserve great credit for the publication which is well edited and carefully planned. The 1919 Prism board is made up of the following men: S. Wilson Collins, Editor-in-Chief; Oscar L. Whalen, Business Manager; John E. Goodwin, Assistant Business Manager; Raymond J. Cook, Emerson C. Lawry, Estelle P. Spears, and Robert D. Chellis, Assistant Editors.

OSCAR L. WHALEN
BUSINESS MANAGER

NAVAL RESERVES TO BE CALLED

There has been quite a bit of discussion among the students around the campus as to whether those men who enlisted in the Naval Reserve thru the recruiting party stationed at the library would be called into service this summer. A letter has been received by one of those who enlisted at that time which states that the Bureau of Navigation is now considering the matter and will notify the reservists as to their decision.

SWAGGER STICKS FOR SENIOR CO-EDS

The male members of the Senior Class appeared at chapel Thursday with the traditional class canes. They are of dark wood with silver mountings and lend a new air of dignity to the reigning class. A startling innovation was instituted by the girls of this class, who not to be outdone by the other part of the class, came forth with swagger sticks.

U. of M. Loses to Naval Reserves

In a game in which both teams played real baseball the Naval Reserves from Portland won from the U. of M. team with a score of 6-3. DeRocher pitched good ball and struck out thirteen men for Maine with Barron catching while Durning pitched for the Reserves with Knox catching.

In the first inning no runs were made by either side.

In the second inning the Reserves got 4 runs:—Knox led off with a hit, Campbell followed with another, Thaxter struck out, then "Swasey" Wadlin came up and got to first by "Hit by Pitched Ball." This filled the bases but prospects looked good when the next man up struck out, but Durning came up and knocked a long fly out over Wood's head bringing in the three men on bases and placing him on third, he himself finally came home before the third man was struck out.

In the third inning Waterman got a three base hit and Faulkner brought him home but no other runs were scored until in the sixth when Walker and Barron brought in two more runs for Maine. Nothing more happened of excitement except an occasional hit until the last inning when DeRocher struck out the first man up in this inning, then he walked a man, struck out the third man, but the fourth man up

found the ball for a three bagger bringing in a tally. Burns of Portland brought him in home with a two base hit but was finally caught trying to come in home. The line-up is as follows:

MAINE MEN MAKE GOOD

The Third Officers' Training Camp at Camp Devens, Ayer, Mass., is over and the following "Maine" men were recommended for commissions in the U. S. Infantry:—Norman Small '17, Joseph McCusker '17, Serenus B. Rodick '19, Hamlyn Robbins '19, Merton F. Banks '15, Chas. M. Ziegler '19, Morton Whitcomb '19, George Wadlin '17, F. H. Curtis '16, Gardner French '19, James Gulliver '16, Guy C. Palmer, George Hutchins '18. F. M. Gray has been sent to France for further training.

H. D. Watson '18 and R. W. Chaplin '20 have completed a similar camp at Fort Oglethorpe and have also been sent to France.

Nobuddy works as hard for his money as the feller that marries it.

Nobuddy ever listened to reason on an empty stomach.

KING PRIZE SPEAKERS HAVE BEEN ANNOUNCED

Professor W. P. Daggett of the Department of Public Speaking announces that the following members of the junior and senior classes have signified their intention of competing for the King prize at the coming commencement:

Robert Rich '18, of Berlin, N. H.; Thelma Louise Kellogg, '18, of Vanceboro; Oscar Livermore Whalen '19, of Eastport; and Abraham Segal '19 of Lewiston. It is expected that there will be other candidates although the success of the contest is already assured. The King prize of \$25 is the gift of Clarence P. King of Washington, D. C., and is awarded to the member of the junior or senior class who delivers the best original oration. The contest will be held on Saturday evening of commencement week, May 18.

The Managing Editors have charge of the news columns and general make-up of the paper.

The Business Manager with his assistants is directly responsible for all the business and finances of the paper.

EDITORIAL

Except for the daily Assembly exercises and athletic contests we have few unifying forces here at the University of Maine.

To counteract the much felt lack of a Student Union building we all need to get around more and make the acquaintances of men in other fraternities and colleges. In the past sporadic attempts at having men visit in other houses on certain days have been tried but these did not work. It is hard to arrange any artificial trading of men that would be carried out.

The best thing we can get here on the Maine campus to remedy this lack of interfraternity visiting is to have all students go into the other houses or dormitory as much as possible. All the houses always give a cordial welcome to anyone for a meal and their latch string is ever out.

If the spirit got around this campus that any house could be considered a home for any Maine man we would find a far greater spirit of unity in university activities than we now have. A thing like that cannot be brought about at once, it cannot be forced, it must grow. Everything is done by quotas these days; so a good quota for each individual student would be to become acquainted with a dozen new men before the end of the college year or to visit every fraternity house on the campus.

We should mix more. The more we become good mixers the more we help build up Maine spirit and that is really the basic reason for all college activities.

THE GREAT DUTY

As we go about our daily tasks in peace and safety men are dying every minute on the battlefields of Europe to save civilization. Our own gallant soldiers are shedding their blood in France and our sailors engulfed in the waters of the Atlantic as they go in defense of America's rights and honor.

Upon our performance of the work committed to us depend the lives of thousands of men and women, the fate of many nations, the preservation of civilization and humanity itself; and the more efficient and prompt we people of America are in doing our part, the more quickly will this war come to an end and the greater the number of our soldiers and sailors who will be saved from death and suffering and the greater number of the people of other nations released from bondage and saved from death.

To work, to save, to economize, to give financial support to the Government is a duty of the Nation and to the world and it is especially a duty to our fighting men who on land and sea are offering their lives for their country and their countrymen.

War, in a good cause, is not the greatest evil which a nation can suffer. War is an ugly thing, but not the ugliest of things; the decayed and degraded state of moral and patriotic feeling which thinks nothing worth a war is worse. When a people are used as mere human instruments for firing cannon or thrusting bayonets, in the service for the selfish purposes of a master, such war degrades a people. A war to protect other human beings against tyrannical injustice; a war to give victory to their own ideas of right and good, and which is their own war, carried on for an honest purpose by their free choice, is often the means of their regeneration. A man who has nothing which he is willing to fight for, nothing which he cares more about than he does about his personal safety, is a miserable creature, who has no chance of being free, unless made and kept so by the exertions of better men than himself. As long as justice and injustice have not terminated their ever-renewing fight for ascendancy in the affairs of mankind, human beings must be willing, when need is, to do battle for the one against the other.—*John Stuart Mill.*

This was written a half century and more ago, but it might have been written yesterday it applies so well to to-day's conditions. The truth is the same yesterday, to-day, and to-morrow.

The co-eds are to give performances of the pantomime "Into the Nowhere" and a French play, featuring eight characters, on the afternoon and evening of May fourth in the Assembly Hall.

Folks that blurt out just what they think wouldn't be so bad if they thought.

AMERICAN DEFENSE SOCIETY WARNING

Every German or Austrian in the United States, unless known by years of association to be absolutely loyal, should be treated as a potential spy.

Be on the alert. Keep your eyes and ears open. Take nothing for granted. Energy and alertness may save the life of your son, your husband or your brother.

The enemy is engaged in making war in this country, in transmitting news to Berlin, and in spreading peace propaganda, as well as lies about the condition and morale of American military forces.

Whenever any suspicious act, or disloyal word comes to your notice, communicate at once with the police department or with the local office of the Department of Justice.

NAVAL RESERVE IS AGAIN OPEN

The Bureau of Navigation has issued orders that enrollments in the Naval Reserve in practically all branches should again be open.

Seamen, blacksmiths, carpenters, mechanics, enginemen, electricians, shipfitters, copper-smiths, boiler-makers, pattern-makers, water-tenders, firemen and machinist's mates are particularly needed.

The pay varies from \$35.90 per month for second class Seamen, to \$77.00 per month for boilermakers. In addition to the regular pay there is an allowance up to \$50.00 per month for dependents exclusive of any state aid; allowance of \$60.00 worth of clothing upon entering the service; insurance up to \$10,000 at low cost—good after the war; chance to learn a trade or secure a commission; opportunity to travel and serve the country.

American citizens only will be enrolled, excepting that in the Commissary Branch aliens with first papers will be taken. The minimum age limit is 18 and applicants under 21 should bring a birth certificate. Those of the draft age a statement from their local board to the effect that they are not needed to fill any current draft quota.

Enrollments may be made at the following places:

Section Headquarters:

Machias, Maine; Bar Harbor, Me.; Rockland, Maine; Boothbay Harbor, Me.; Portland, Me.; Portsmouth, N. H. District Enrolling Office Little Bldg., Boston, Mass.; 146 Tremont St., Boston, Mass.; Provincetown, Mass.

U. S. Navy Recruiting Station at 208 Exchange St., Bangor.

Sigma Chi held an informal "open house", Friday afternoon, April 26th, from 2 to 4 o'clock. A large number of Junior Week guests attended. Refreshments of coffee and crackers were served and dancing was enjoyed during the afternoon.

Looks as if the Watch on the Rhine will soon be an American Ingersol.

MAINE MEN TO ATTEND

Word has been received by the Maine Christian Association that a student conference will be held at Northfield, Mass., from June 13 to 21. The conference will include delegates from all the colleges in the East including Harvard, Yale, Princeton, and Dartmouth. Maine must be represented. The purpose of the conference program will be to provide addresses and discussions on the great spiritual issues of the war and its aims and to plan for Y. M. C. A. work in the colleges next year. The speakers will be of the highest calibre including Dr. John R. Mott, the international statesman who is now in Europe. Any man who has any idea that he can possibly attend the conference should communicate with Whalen '19, as soon as possible.

GENERAL LECTURE COURSE CONCLUDED

The tenth and final lecture of the General Lecture Course was given Wednesday, April 17, in Aubert Hall by Professor Lucius H. Merrill. He took as his subject the bio-chemistry of foods giving a short history of food bio-chemistry and then taking up each of the main classes of foods, fats, carbohydrates and proteins with respect to their chemical features. Professor Merrill concluded with a discussion of the diet and the effects of a wrong diet.

The general lecture this year has been attended with unusual interest and numbers both of students and faculty. It was given under the direction of the Department of Chemistry and its title, "Chemistry and the War," explains its unusual success.

Various rumors of a "Rising Day" during the last week in April were dispelled by the announcement that this annual event would be held on Friday, May 10. The Senior Skulls who are in charge of this affair voted thus at a recent meeting and appointed a committee of their number to confer with representatives of the Sophomore and Freshman classes to arrange for the customary events of this day. This time of emancipation for the freshmen is awaited with interest by the upper classmen as well as the participants.

The Portland Committee of Vassar Women has asked the University office for a list of the women graduates of Maine since 1908, in order to interest them in the Training Camp for nurses to be held at Vassar College, Poughkeepsie, N. Y. this summer.

This summer training camp has been called the "Women's Plattsburgh", and an appeal for recruits is being made to all the colleges for women, and co-educational institutions of the East.

On Saturday, April 27th, at 3 P. M., a meeting was held at the residence of

Mrs. Franklin Payson, 28 Bowdoin Street, Portland, of those interested in the camp, and a speaker from the Recruiting Committee gave full information and details.

"It's a low, lying country and damned all around."

Gillette

Safety Razor

*Have You Seen the New Gillettes
Specially Designed for the Fighting Man?*

THESE models were designed by members of the Gillette Organization who have seen service with the Colors and know what the soldier is up against.

Hundreds of officers and men are buying them—the U. S. Service Set in metal case, and the new Khaki-covered sets for Uncle Sam's soldiers and officers.

The Gillette is the one razor for the man who is doing things—the one razor with world-wide use and reputation.

When a man wants new Blades he can get them at any Post Exchange or Y. M. C. A. Hut—here in America or Overseas.

Our Paris Office carries stocks—is constantly supplying the American Expeditionary Forces. Gillette Safety Razors and Blades on sale everywhere in France, England, Italy and the Eastern battle fronts.

The Army of the United States Is Shaved Clean

NO matter how a man shaved before he went into the Service, he is pretty sure to come out of the war a Gillette user.

The first thing he'll note among his camp mates is that more of them are shaving with the Gillette than with all other razors put together.

He'll see Gillette users in his squad lather up, shave clean, splash the soap off, tuck the razor away, and be standing at attention in the inspection line—all in five minutes.

When he gets Overseas, everything is the Gillette, from the left flank of the British line in Belgium clear around through France and Italy and on the battle fronts of the East.

Soon or late, every man who is doing things comes to the Gillette. They belong together. Ten million up and doing men all over the world had discovered the Gillette before the war broke out. The war simply made the Gillette prove

itself under extreme conditions—as no other razor has or can.

It has thrown the spotlight on the Gillette Blades—on the Gillette principle of No Stopping—No Honing—on the Gillette idea of a simple, compact shaving outfit, no strops or hones to clutter up the kit—on the Gillette contention that a man's daily shave should be an incident and not a ceremony.

CORNELL UNIVERSITY MEDICAL COLLEGE,
in the City of New York

ADMITS graduates of the University of Maine presenting the required Physics, Chemistry, Biology, English and a modern language.

INSTRUCTION by laboratory methods throughout the course. Small sections facilitate personal contact of student and instructor.

GRADUATE COURSES leading to A. M. and Ph. D. also offered under direction of the Graduate School of Cornell University.

APPLICATIONS for admission are preferably made not later than June. Next session opens September 30, 1918.

For information and catalogue, address
THE DEAN, Cornell University Medical College, Box 453, First Avenue and 28th Street, New York City.

FRESHMAN CLASS
NOMINATES MEN

A meeting of the nominating committee of the Freshman Class was held Friday noon and the following men were nominated: For Poster Committee, J. T. Cote, R. W. Thompson, K. E. Vaughan, A. S. Burns, W. L. Blake, H. S. Tibbetts, V. E. Oaks, H. L. Greenleaf, I. McKechnie, B. Klubock, C. C. Swift, E. T. Myers; For Cap Committee, W. F. Barry, E. K. Wilkins, H. C. Crandall, L. K. Carey, R. Moulton, E. S. Cooper, R. C. Castle, E. Mack, L. M. Cornell, H. A. Blethen; For Pipe Committee, P. Murphy, C. J. Austin, J. C. Burrows, H. L. Sawyer, R. P. Schonland, W. L. Flanders, L. J. Kelly, F. L. Cole.

MAINE GRADUATE
INJURED IN FRANCE

Prof. W. P. Daggett received word recently that Philip N. Libby '17, a member of the Masque of last year, had been slightly wounded in France on April 9. Libby was graduated from the college of Agriculture last June having taken his major work in Forestry. On Nov. 1 he enlisted for service in the engineering corps, and was assigned to Co. A, 30th Engineers, gas and flame service. He left with his regiment for overseas about Christmas. During his last year in college, he was president of the Forestry club and belonged to his class track team, class cross country, varsity cross country and "M" club, and was a member of the Maine Masque. He was elected to Phi Kappa Phi, the honorary society, during his senior year.

PROFESSOR STEPHENS
TALKS ON RAILROADS

The student body was treated to a very interesting talk upon government operation of the railroads at chapel last Thursday by Professor George Ware Stephens of the Department of Economics. He brought forth the underlying and immediate reasons for the Government taking over the railroads of this country.

FIRST GAMES OF
SUNSET LEAGUE

The "Sunset League" started last Tuesday night with a lot of "pep" which shows that the fraternities are showing much interest, a thing which has sort of been lacking so far.

The first game was between Sigma Chi and Phi Kappa Sigma with the Sigma Chi on the short end of the score. The Sigma Chi's tried several of their best twirlers but it seemed to be useless. The Sigma Chi's by losing are dropped from the league.

On Wednesday night the hard hitting Alpha team opposed a team from the Lambda Chi and proved superior in more ways than one. The Barron-Stewart battery is probably the best one in action on the campus, at least have proven so thus far. Now it's up to the rest of the houses to keep the enthusiasm up and continue the schedule for the next two weeks. The cup which is offered by the Sophomore Owls will be on exhibition at the University Store sometime this week.

If the Army and the Navy
Ever look on Heaven's scenes
They will find the streets are guarded
By the United States Marines.

All men are born free and equal.
But most of them marry.
